

Mozaik

Design by Mark Gabbertas

Mozaik is an integrated modular soft seating and storage system that allows for infinite configurations and significant flexibility. The range is based on a simple geometric principle with stools, benches and storage in various heights allowing a

limitless number of interesting architectural mini-landscapes.

Design Mark Gabbertas

Mark Gabbertas is a furniture designer with a different perspective. After ten years in advertising, he trained and worked as a cabinet maker, before establishing the Gabbertas Studio in 2001. The intent is

to create character through simplicity via the rigorous pursuit of designs that have both an elegance and a lasting aesthetic... it is all too easy to shock, but much more difficult to please.

Standard Features
